

I would like to comment on the possibility of LPFM stations taking priority over current FM translator service. I currently listen to an FM station over a translator. It is important for my in my local community to be able to listen the the radio station of my choice. If the station that I listen to loses its ability to use the translator, I will lose the ability to listen. This station is very positive, uplifting, and encouraging to me and my familyl. I believe that listening to K-Love is in the public's interest because I do not have to worry about something being said that is offensive. For these reasons I believe that the stations currently using the translators should not be replaced by LPFM stations.

loses the ability use translators,
